METHODOLOGY

The Internally Generated Revenue (IGR) for the 36 States and FCT is compiled by the Joint Tax Board from official records and submissions by the State Boards of Internal Revenue. The revenues are classified appropriately and aggregated.

MDAs Revenues

This relates to revenues generated administratively by State MDAs while providing various services.

Direct Assessment

This relates to a form of personal income tax used to assess tax for self-employed individuals. With the self assessed tax, a new taxpayer can assess him/herself, and pay the calculated amount. Direct assessment relates to those imposed on businesses especially (informal) by the state authorities based on the size of their activities.

Pay As You Earn (PAYE)

This form of personal income tax refers to tax deducted directly from wages and salaries of employees operating in the formal sector. All employers in Nigeria are responsible for deducting Pay as You Earn (PAYE) taxes from their employee's earnings.

Road Taxes

Road taxes are daily levies paid by commercial transporters operating within the states.

Other Taxes

These include various taxes such as levies on market traders, land registration and other land-related fees, development levies on individuals, pool betting/lottery/gaming fees, stamp duties on individuals etc

****Please note:**

Figures are subject to reconciliations and updates by the respective sub-national revenue authorities.
